Subject: Consultation on Housing Development Strategy from Rother District Council

Dear Mr Richard Farhall (Parish Clerk), Ewhurst Parish Council

Consultation on new Housing Development Strategy

We would like to invite Ewhurst Parish Council to take part in the consultation on our draft housing development strategy.

This strategy addresses how Rother District Council should bring forward and support more housing developments in Rother that will provide the housing needed by local people.

There are specific references to working with the town and parish councils across Rother. Many of the parishes were involved in research that helped draft the strategy, such as the housing development event in January 2024.

Although associated with the Local Plan and other strategies for homelessness and economic development, it is a separate new strategy. We have been working with a range of local and regional organisations in the housing sector over 2024.

To read the draft strategy and take part in the consultation, please go to our website at [Housing Development Strategy Consultation – Rother District Council](#)

This consultation closes on 31 March 2025.
